### **DETAILED ACTION**

Applicant's arguments filed 2/7/05 have been fully considered but they are not persuasive. See argument below.

I. Rejection of claims 1,3-18,20-28,30-39,41-48,50-56,68,69,71,72,86-91 under 35 USC 103(a) as being obvious over AF 300 from Nufarm MSDS will be maintained for reason on record and reason as follows. Applicant argues that instant claims employ the language "consisting essentially of" and for this reason Applicant argues that kerosene would be excluded from instant composition. Applicant states that kerosene would materially affect the activity of the instant composition. Applicant provides a Declaration to state this. Examiner argues that Applicant makes a statement as to how kerosene would affect the instant invention in terms of toxicity. However, Applicant provides no data to support the statement. For this reason, the rejection on record is maintained until such data are provided. With respect to instant invention, Examiner concludes that kerosene may not materially affect the activity of the instant compounds.

II. Objection to claims 57-65,67,70,72-85 will be maintained for reason on record stated in office action dated 11/30/04.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 1616

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
